The Center of  
the One Heart

joyfully co-  
create a new  
world.

## **Building community**

Since its incorporation by the Commonwealth of Virginia as a non-profit educational corporation in February of 2001, after five exploratory meetings in the year 2000, the Center of the One Heart on a rhythmic basis, has sponsored periodic gatherings where together we can create powerful, fun-filled and transformative heart-filled environments. In that space, we are able to tap the high-speed intuitive heart intelligence of the Unified Presence. Our periodic gatherings offer a powerful opportunity to come together in our collective heart and to tap the power of love and action, divine synchronicity, infinite intelligence, and the powerful connectivity that comes from awakening and moving into our deepest encoding and purposes for being on the earth.

([www.oneheartcenter.org](http://www.oneheartcenter.org)).

For more than 50 years the University of Science and Philosophy ([www.philosophy.org](http://www.philosophy.org)) until 2001 operated from its Afton Mountain headquarters at Swannanoa Palace and Gardens. Many of the teachers, healers, artists and spiritual seekers who co-founded the Center of the One Heart were students of Walter and Lao Russell, the illuminates who lived at Swannanoa Palace on Afton Mountain and who created first the Walter Russell Foundation which later became the University of Science and Philosophy.

In the 1990's the 11:11 awakening movement founded by Solara was based in the Charlottesville area ([www.nvisible.com](http://www.nvisible.com)). After the opening of the doorway of the 11:11 on January 11, 1992, many people came to the Charlottesville area drawn by Starborne Unlimited and its opportunity for spiritual community. Although Starborne Unlimited later relocated to Montana, then to Hawaii, and now is located in Peru, some of those drawn to the Charlottesville area by Starborne Unlimited chose to remain in the Charlottesville area. These two seed groups coalesced to initially generate the formation of the Center of the One Heart and over the last seventeen years many others have been drawn to the rhythmic periodic gatherings of the Center of the One Heart.

In addition to roots in the work of Walter and Lao Russell, and the work of Solara and Starborne Unlimited, the Center of the One Heart engages in group process and group initiation similar to the group work outlined by Gurdjieff and Ouspensky. When flying in flock formation and in our unified presence, members, associates and friends of the Center of the One Heart are able to make even more of a difference collectively than they are in their individually respective paths and they are also able to tap the power, range and endurance that comes through collaborative spiritual work.

Talks will be held at the Northside Library,

705 Rio Rd W, C'Ville VA

All talks are from 6:30-7:30, followed by a Q & A period

Monday October 2nd: Antonia Albano  
Topic: Journey into the World of Sacred Geometry  
*'Evolving to the Next Octave of Love'*

Antonia Albano

[www.celebrationoflove2017.com](http://www.celebrationoflove2017.com) [www.southerhighlands.com](http://www.southerhighlands.com)

About the talk:

In 2004, while on a modern day vision quest, Antonia began a journey into the world of Sacred Geometry, that over the next 9 years would culminate with a family of 7 Geometries of Love ...sacred technologies for the next octave of human & a unified field system for the next octave of Love. Communication came & continues mostly in the space between sleep & waking or late at night.

This journey led her further into the world of geometry, physics, quantum physics, theosophy, philosophy, bio-geometry, shape, motion, color & sound as she sought understanding.

You are invited to come share in her journey & meet some beauty-full visual expressions that invite us to consider that we are on a path much, much larger than that of which we are aware. Antonia is a Messenger.

Bio:

Antonia has been facilitating workshops on the raising of human consciousness since early 1990s. This has taken her through many interesting and diverse fields, most moving into the esoteric sciences and sacred geometry.

The two gifts that Antonia shares are the new Geometric Technologies of Love - the 'breathing, pulsating, infinite density of potential' geometries for evolution into the next harmonic of Love and the Next Step in Human Energy Evolution - a complete 'hardware' upgrade of the energetic centers of the human body to facilitate our evolution.

Throughout the years Antonia has held the dream of a world of 'awakened hearts'. Founding the 'World Love Project', Virginia's 'Celebration of Love', 'Give Love a Chance', 'Travel Journeys', and the 'Healing Resonance Council' are ways Antonia envisions making a difference. She has been involved for over three decades with the California based Alohem Center for Transformational Studies, has spent time as a Transformation Coach and Spiritual Mentor and continues to explore esoteric studies expanding her inner vision and dissolving illusions.

Monday October 16th: Margaretta McIlvaine  
Topic: Energy Medicine in the Operating Room  
*'A Journey of the Heart'*

About this talk:

In 2009, Margaretta accompanied a client to open heart surgery at UVA hospital in Charlottesville, VA.

What she experienced there was profound and life changing. She will share some unique findings; scientific as well as spiritual, about this experience and the numerous surgeries she has had the privilege to attend as an energy worker.

We would like to encourage nurse practitioners and other health care professionals who might be interested in seeing this brought to their work, to attend.

*Geoffrey and Diana Bullington*

Bio:

As spiritual cosmologists, studying the frontiers of science and heart-centered religious and philosophical belief systems, Geoffrey & Diana Bullington have identified Universal Principles, which explain how to 'consciously create' a more harmonious life experience, helping to attain greater awareness and understanding of how our bio-energetic body works and how to open our heart intelligence. They share their tools, methods and processes through their seminars, workshops, videos and visualizations. They will soon be launching a website, [www.spiritualharmonics.com](http://www.spiritualharmonics.com)
